

House rules for use of the Multifunctional room (MFR)

- Open the MFR with your entrance key to enter. Please lock the room space as you leave after use.
- If furniture needs to be moved, please do so with two people (esp. tables and benches).
- After use (or the next day), clean the room and leave it in (preferably) a better state than when you found it. We thank you for that.
- If you use the tablecloths on the (standing) tables, please wash them yourself afterwards and place them back in the box (bottom left door of the kitchen cupboard).
- A floor plan showing how the spaces should look after use is located in the door of the left upper cupboard.
- House rules also apply in the MFR, so please keep the volume of music low. You can expect the lights to go out at 10:00 PM (sometimes 11:00 PM).
- If you open (one of) the outside doors, you are also responsible for the outside conditions. You are expected to leave it clean and tidy and do not throw rubbish or food in the water.

When securing the doors, than be careful!!! (the doors have had to be re-secured several times because they were forced open. You can't expect the hinged hook to sufficiently secure the door). Lift the hook with your foot and release it once it is at the opening.

- When the doors are open, be especially mindful of the noise for the residents who are enjoying the experience.

We thank all residents for following these house rules and wish you all a pleasant day or evening.
